

*Make a tangible contribution to helping people with a disability to
develop abilities and achieve happiness...*

The Toowoomba Horse Riding for the Disabled Association is a not-for-profit organisation offering therapeutic riding to people with special needs living in the Toowoomba region. Our riders are aged from 3 to 65 years and have a wide range of disabilities. We currently have ten specially selected horses.

The therapeutic benefits gained from horse riding are many and varied. They affect our riders' lives in many ways including: improving core strength and stability, developing co-ordination and balance, enhancing speech and communication skills, building confidence and enabling social interaction. In addition, horse riding provides a fun outdoor activity for people who may find it difficult to participate in mainstream sports.

Making this happen for our riders needs lots of resources...we would welcome your help!

Your support could take one or more forms: product; manpower; funding and/or sponsorship of our horses.

Together we can find a way to shape your contributions that reflects your, or your organisation's interest.

Our corporate supporters are recognised in the following ways: display of your logo on our website (<http://www.rdaq/toowoomba>) and in our newsletters, in a media release; and in our presentations to community groups. We will also present you with a certificate of appreciation.

The sponsors of our horses are invited to have a photo taken with the horse. You will receive regular updates from your horse. Your contribution to supporting the feed and care of the horses will be acknowledged through a media release, a certificate of appreciation; and a lots of love from our happy health horses.

Please visit our website to find out more information about the invaluable role our sponsors play in enabling the Toowoomba RDA to continue to meet the special needs of children and adults living with a disability.

Please contact us if you would like more information or we can assist you in any way.
